Summer Learning Packet

Eight weeks · 20 minutes a day · no screens, no prep

Reading · one page a week

Math review · K-3 skills

Writing prompts children finish

Real-world challenges

Reading log, calendar & certificate

This packet belongs to

How to run these 8 weeks

For the adult · read this once and never again

- 1 Twenty minutes a day, Monday to Friday. Weekends are off - that is the deal.
- 2 Each week has four sheets: reading, math, writing and a real-world challenge.
- 3 Do them in any order, but do the challenge on the day with the least patience.
- 4 The math sheets get harder every two weeks: to 10, to 20, to 50, to 100.
- 5 Log every book on the reading log. Twenty minutes counts even if it is a comic.
- 6 Tick the calendar together - the visible streak is what keeps it going.
- 7 Never finish on a fight. Stop at 20 minutes even mid-sheet.
- 8 Sign the certificate at the end of week 8 and put it on the fridge.

Why it matters

Children lose part of a school year's reading and math over a long break.

Twenty minutes a day, five days a week, is enough to hold the line - and then some.

Summer calendar

Tick one box per day. Five ticks a week is a full week - weekends are free.
